DETAILED ACTION

1. Applicants' reply filed 11/26/10 is acknowledged.
2. Claims 82-84 and 87-94 are pending and examined on the merits.
3. The rejections and objections not set forth in this action are withdrawn.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 82-84 and 87-94 remain rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-9 of US Patent Number 7,632,983 (hereafter '983). Claim 1 of '983 is drawn to a method of producing a recombinant monoclonal antibody having effector's function in a duckweed plant culture or a duckweed nodule culture, comprising the steps of:

(a) culturing within a duckweed culture medium a duckweed plant culture or a duckweed nodule culture, wherein said duckweed plant culture or said duckweed nodule culture is stably transformed to express said monoclonal antibody, and wherein said monoclonal antibody is expressed from one or more nucleotide sequences comprising a coding sequence for a chain of the monoclonal antibody, an operably linked coding sequence for a signal peptide that directs secretion of the monoclonal antibody, an operably linked 5' leader sequence of SEQ ID NO: 16 of instant application, and an operably linked plant intron sequence that is inserted upstream of the coding sequence; and

(b) collecting said antibody from the duckweed culture medium, the duckweed plant culture, or the duckweed nodule culture, wherein said coding sequence for the chain of the monoclonal antibody comprises between 70-100% *Lemna gibba*-preferred codons or *Lemna* minor-preferred codons.

Claim 8 of '983 further limits a signal peptide being SEQ ID NO: 6 of instant application. Therefore the claims of '983 teaching all the limitations set forth in the instant claims.

Applicants do not present any argument and therefore the rejection is maintained. However, Applicants' intention to address the filing of a terminal disclaimer when the application is otherwise in condition for allowance is acknowledged (response, page 9, 3rd paragraph).

Conclusion

No claim is allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
